

PRESS RELEASE

For immediate release

Date: 16th April 2010

Title: Hanson Structherm's NEW Fastbuild Brochure Now Available!

The NEW Structherm Fastbuild[®] brochure is a welcome addition to the current range of brochures and provides valuable information about their precast concrete building system.

Hanson Structherm have been providing solutions to the construction industry since 1983. Their technical expertise in the design, manufacture and supply of pioneering new build systems, combined with comprehensive support throughout the construction process is unrivalled. From initial concept through to completion, they provide a first class service throughout the duration of your new build project. We work closely with all parties involved in the supply chain, including architects, main contractors, engineers and consultants who can confidently draw on our design and building expertise.

To download a copy of the NEW Structherm Fastbuild[®] brochure, please visit:

www.structherm.co.uk/Resource-Centre/Product-Literature.aspx or call 0800 040 7460 to request a hard copy.

****End****

Notes to Editors:

Structherm Ltd has been providing solutions to the construction industry for over 25 years. Our technical expertise in the manufacture and supply of innovative building solutions (Structherm Fastbuild[™] precast concrete building system, external wall insulation and structural insulated cladding) combined with comprehensive support throughout the construction process is unrivalled.

We are part of Hanson Building Products who are one of the world's largest suppliers of heavy building materials to the construction industry. Hanson produce aggregates (crushed rock, sand and gravel), ready-mixed and precast concrete, asphalt and cement-related materials and a range of building products including concrete pipes, concrete pavers, tiles and clay bricks.

Hanson are part of the Heidelberg Cement Group, which employs 70,000 people across five continents, and has leading positions in concrete and heavy building products and is the global leader in aggregates.
