

# Precast Concrete and the Construction Improvement Agenda

Presentation by

**Martin Clarke** of British Precast

and **Graham Paddock** of member company Precast Concrete Structures Ltd

## *This CPD Seminar will cover the following:*

A breakfast briefing from British Precast that will guide you through the latest policy announcements from Government and the concrete industry. Graham and Martin will provide examples of how the structural and architectural precast sector is leading the response.

The briefing will update you on the Morrell Construction Innovation and Growth Team Report and the Governments response, the Governments new Construction Strategy, and the latest sustainability reports including an early preview of the concrete sustainability roadmap to 2020. It will showcase some case studies from Precast Concrete Structures and the recent best practice awards from British Precast.

The presentations will last around 45 minutes with 15 minutes for Q&A. ***All delegates will receive a memory stick with the referred documentation.***

**Wednesday 14 September 2011**

Cardiff Stadium, Leckwith, Cardiff
