

Thames Water Approve CPM's Perfect Manhole

Thames Water has become the latest water company to approve CPM's Perfect Manhole system.

The more for less Perfect Manhole is a unique system of products that combine to give more design freedom as the location of the inlets and outlets and invert configuration can be manufactured individually and exactly in accordance to the wishes of the specifier and client.

The watertight solution that does not need to be surrounded in concrete is manufactured under factory conditions and is kitemarked to the requirements of BSEN 1917 and BS 5911-3.

The Perfect Manhole is made from high quality durable concrete with a minimum 120 year design life giving you peace of mind.

To find out more about the Perfect Manhole please call the sales team on 01179 812791 or email sales@cpm-group.com
